Mississauga, ON L5T 1P7

Headquartered in Mississauga, Ontario, the company employs 1,500 people at its offices nationwide, servicing the Canadian market from coast to coast. Innovation and cutting-edge technology have been essential ingredients in Canon's success. Canon's leadership in imaging, optical and document management technology and solutions is based in large part on the thousands of patents the company has secured throughout its history. For the 16th consecutive year, Canon Inc. is among the top three U.S. patent recipients.

The company's comprehensive product line includes networked multifunction devices; digital copiers (colour and black and white); printers, scanners, image filing systems, facsimile machines; calculators, digital camcorders, digital and analogue cameras and lenses; semiconductor, broadcast and other specialized industrial products.

Canon supports programs that help preserve and protect the environment. The company instituted the Clean Earth Campaign in 1990, which assists various environmental and recycling initiatives. The

Campaign has also supported leading environmental organizations, such as the World Wildlife Fund-Canada and the Canon Envirothon.

Au total, 1 500 employés travaillent à son siège social, situé à Mississauga, en Ontario, et à ses succursales partout au pays afin de desservir le marché canadien, d'un océan à l'autre. L'innovation et la technologie de pointe sont la force motrice du succès de Canon. Le leadership de Canon en matière de technologie et de solutions d'imagerie, d'optique et de gestion de documents est en grande partie fondé sur les milliers de brevets obtenus par la société au cours de son existence. Pour la seizième année de suite Canon Inc. se classe parmi les trois premières sociétés pour ce qui est du nombre de brevets déposés aux États Unis.

La gamme complète des produits de la société comprend des appareils multifonctions réseau, des copieurs numériques et analogiques (monochromes et polychromes), des imprimantes, des scanners, des systèmes d'archivage d'images, des télécopieurs, des calculatrices, des caméscopes numériques, des appareils photo numériques et analogiques et des objectifs, des semi-conducteurs, de l'équipement de diffusion et d'autres produits industriels spécialisés.

Canon soutient des programmes de protection et de préservation de l'environnement et a lancé, en 1990, la Campagne pour une planète propre pour appuyer plusieurs initiatives de protection de l'environnement et de recyclage. La Campagne pour une planète propre a également soutenu des organismes importants de protection de l'environnement tels que le Fonds mondial pour la nature-Canada et le programme Envirothon de Canon.
