ENCANA™

Head Office:

855 2nd St. S.W., Ste. 1800,
Calgary, AB T2P 2S5

EnCana is one of North America's leading natural gas producers, is among the largest holders of gas and oil resource lands onshore North America and is a technical and cost leader in the in-situ recovery of oilsands bitumen. EnCana delivers predictable, reliable, profitable growth from its portfolio of long-life resource plays situated in Canada and the United States. Contained in unconventional reservoirs, resource plays are large contiguous accumulations of hydrocarbons, located in thick or areally extensive deposits, that typically have low geological and commercial development risk, low average decline rates and very long producing lives. The application of technology to unlock the huge resource potential of these plays typically results in continuous increases in production and reserves and decreases in costs over multiple decades of resource play life. EnCana common shares trade on the Toronto and New York stock exchanges under the symbol ECA.

The National Parole Board (NPB) is an administrative tribunal that has exclusive authority under the *Corrections and Conditional Release Act* to grant, deny or revoke parole or, under certain circumstances, to order the detention of offenders subject to statutory release. This authority extends to all offenders in federal correctional institutions who are serving sentences of two years or more.

NPB also makes parole decisions for offenders serving sentences of less than two years in provincial and territorial prisons that do not have their own parole boards (only the provinces of Quebec, Ontario and British Columbia have their own parole boards).

Other NPB responsibilities include deciding on whether to issue, grant, deny or revoke a pardon under the *Criminal Records Act (CRA)* and making clemency recommendations to the Government of Canada.
